I am about to graduate from Falmouth University BA animation & VFX. During my 3rd year I have taken on the role of producing the student film *Towels*. Working on this project has given me great experience in teamwork and management of a team of 25 2nd and 3rd years. To manage the team I used spreadsheets on Google Drive to keep the team organised and well functioning. I would like to work as a production assistant, to further my career as an aspiring producer.
